SENIOR MANAGEMENT AT WINTER CONSTRUCTION PURCHASES ROBERT SILVERMAN'S INTEREST IN THE COMPANY

Atlanta (January 9, 2009) - The senior management team of Winter Construction and Winter Environmental has purchased Founder and Chairman Bob Silverman's interest in the companies. Twenty-five year veteran Brent Reid, President and CEO of the firm since 2000, will continue to lead Winter into its 30th year of providing commercial, institutional and environmental services to clients throughout the Southeast.

"Even amidst the current economic downturn, we remain very optimistic about our business, our people and our long-term potential together," said Reid. "We will maintain our focus on being a leader in sustainable construction practices, and we will increase our focus on local projects in both the renovation and ground-up markets."

Silverman will continue his work with the unaffiliated Winter Properties.

About Winter Construction and Winter Environmental:

Founded in October 1978, Winter is a privately owned and operated Atlanta based general contracting company providing construction and environmental services to clients in the hospitality, retail, government, education, corporate/office, religious, healthcare, historic restoration, and multifamily markets throughout the Southeastern and Mid-Atlantic states.

Winter Construction has consistently been ranked in the Engineering News Record (ENR) Top 400 Contractors in the United States for more than 25 years. Winter Environmental has been continually recognized by ENR as one of the top 200 environmental firms in the United States.
